

Add Text or HTML Content to a Dashboard

Video Walkthrough

Add Text/Html Content:

1. On your dashboard go up to the sprocket and click **Add Text/Html Content**.
2. Once the window appears click **Edit Content**.
3. From here you can enter and edit simple text to accent a table, chart, and write yourself or someone else a little memo.
4. You also have the **Html Editor** which allows you to input an image or your own little gadget.
