

Create AMPED leads from new rows in a Google Sheet

Zapier allows you to automatically send new rows in Google Sheets into AMPED as leads. Use this template to get started!

Getting Started:

To use this template, you will need the following:

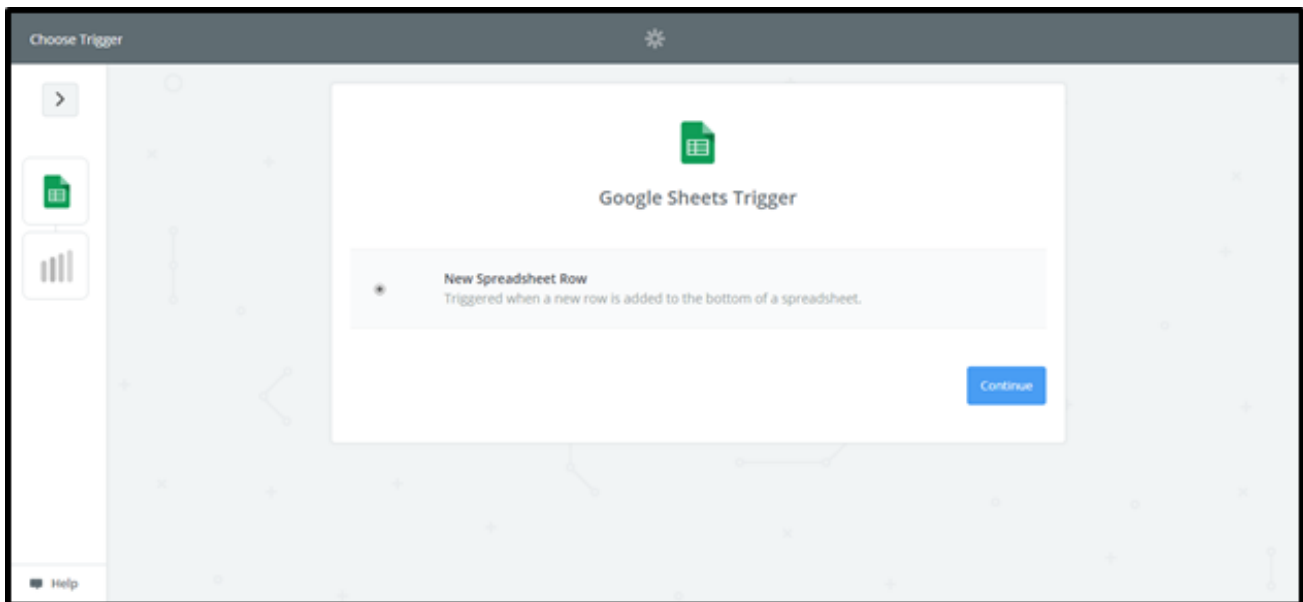

- Zapier Account
- A Google Spreadsheet
- AMPED Account

How to Setup the Template:

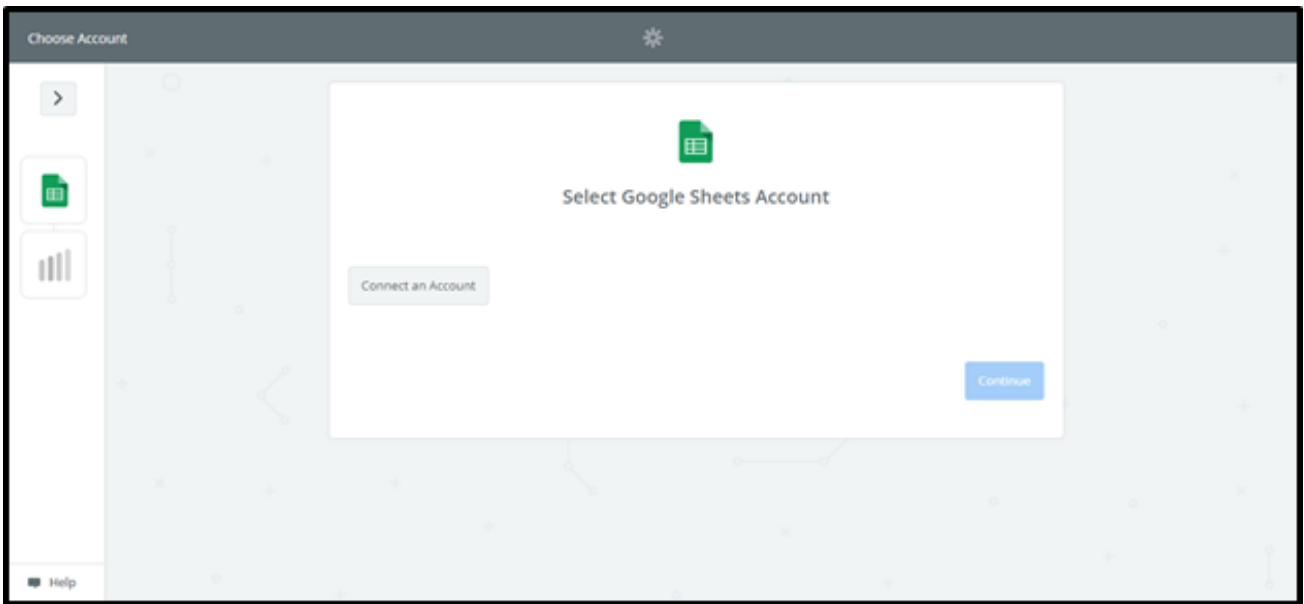

Click the “Use this Zap” button next to the template name “Create AMPED leads from new rows in a Google Sheet” to begin configuration of the template.

The Google Sheets Trigger “New Spreadsheet Row” will be automatically selected. Click “Continue” to move onto the next step.

Once the trigger has been selected, you must connect your Google account. Clicking “Connect an Account” will populate a new window where you will enter your Google account information. If the window does not appear, check your browser pop-up settings.

Enter your Google email or phone number and click "Next" to enter your password.

Once your Google account information has been entered, click "Allow" to let Zapier access your Google Account.

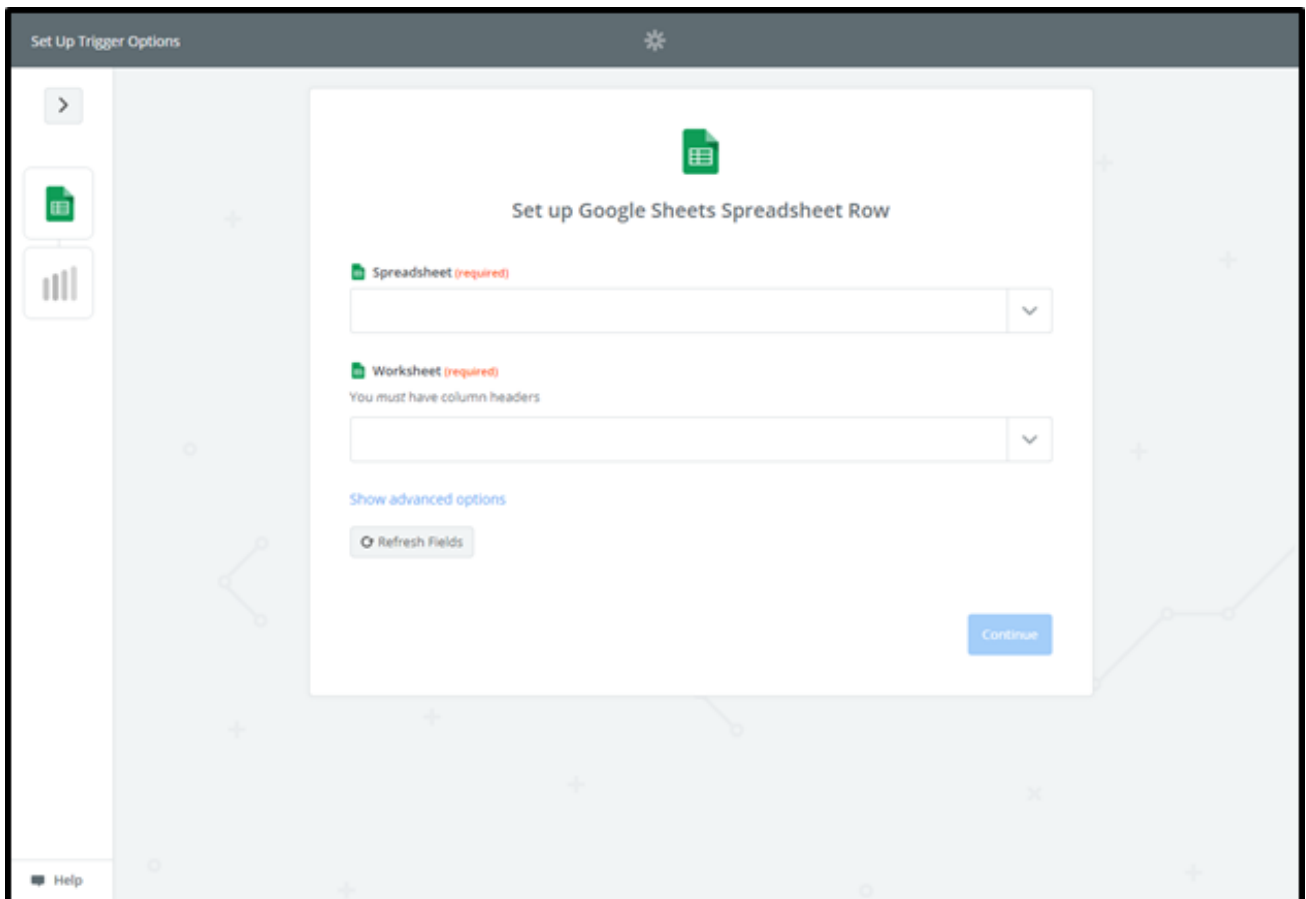

To make sure your account is connecting, you can click "Test". This will send a quick test to ensure the connection.

If successful, you will see a green "Success!" notification. Click "Save + Continue" to move forward.

Next, you will need to choose the Google Spreadsheet and Google Spreadsheet row you would like Zapier to leverage. Once you have selected your Spreadsheet and Worksheet, click "Continue".

Next, you will need to select a sample to setup your Zap. When you have a sample Spreadsheet Row selected, click "Continue".

Now you will be prompted to select your AMPED action. "Create Lead" will be automatically selected in this template. Click "Continue" to move onto connecting your AMPED account.

To connect your AMPED account, add your AMPED username and password and click "Yes, Continue".

Allow Zapier to access your Amped Account?

Username (required)

Password (required)

Yes, Continue Cancel

Once your account has been connected, you will see a green "Success!" notification. Click the "Save + Continue" button to move onto the next step.

Skip Test

Send Test To Amped

You will see a “Test was successful!” notification when the test zap has been executed. You can also check in AMPED for the test lead.

Clicking "Finish" will complete the Zap and turn it on. Congratulations! You have now configured your Google Sheets-AMPED zap! Now you can automatically add new Google Sheets rows to AMPED Leads.

Your Zap is On **ON**

Awesome! Your Zap is working.

YOUR ZAP IS **ON**

While on, this Zap will run instantly when the Google Sheets
New Spreadsheet Row trigger happens.
