Add new Google Contact contacts as AMPED leads

Zapier allows you to automatically send new Google Contacts into AMPED as leads. Use the template to get started!

Getting Started:

To use this template, you will need the following:

- Zapier Accoutn
- Google Contacts
- AMPED Account

How to Setup the Template:

Click the "Use this Zap" button next to the template Name "Add new Google Contact contacts as AMPED leads" to begin configuration of the template.

Once the trigger has been selected, you must connect your Google account. Clicking "Connect an Account" will populate a new window where you will enter your Google account information. If the window does not appear, check your browser pop-up settings.

A sample will be selected for you or you can choose another sample. This sample will help you map over the fields from Google Contacts to AMPED. Click "Continue" to move onto the next step.

Now it is time to integrate with AMPED by selecting the AMPED Action. "Create Lead" will automatically be selected for this template. Click "Continue" to map your AMPED account.

To connect your AMPED account, add your AMPED username and password and click "Yes, Continue".

Allow Zapier to access your Amped Account?
