

Add new Contacts+ contacts as AMPED Leads

Zapier allows you to automatically send new Contacts+ contacts into AMPED as leads. Use the template to get started!

Getting Started:

To use this template, you will need the following:

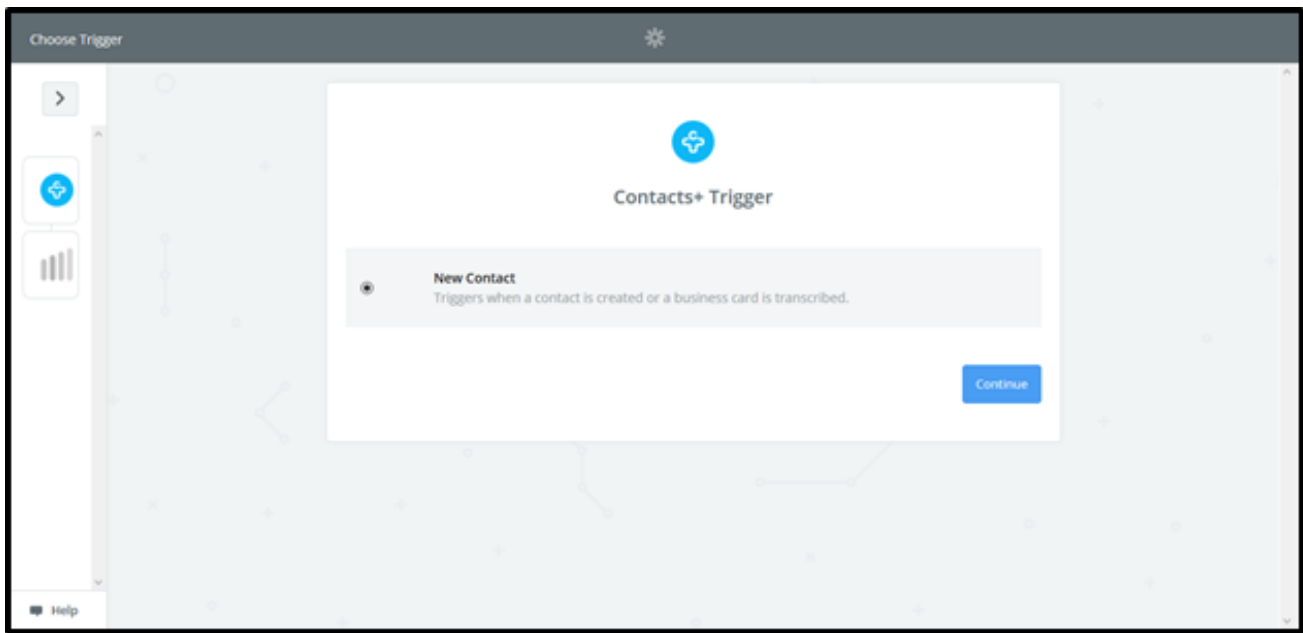

- Zapier Account
- Contacts+ Account
- AMPED Account

How to Setup the Template:

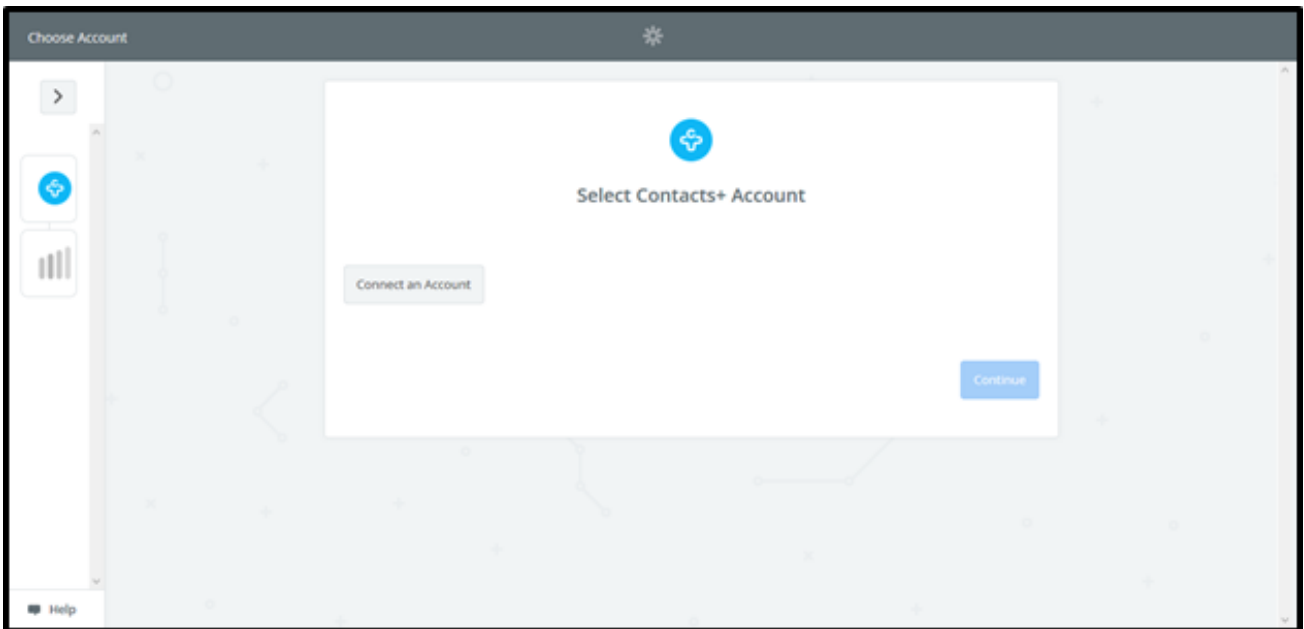

Click the “Use this Zap” button next to the template Name “Add new Google Contact contacts as AMPED leads” to begin configuration of the template.

The Contacts+ Trigger “New Contact” will automatically be selected for this zap. Click “Continue” to move onto the next step.

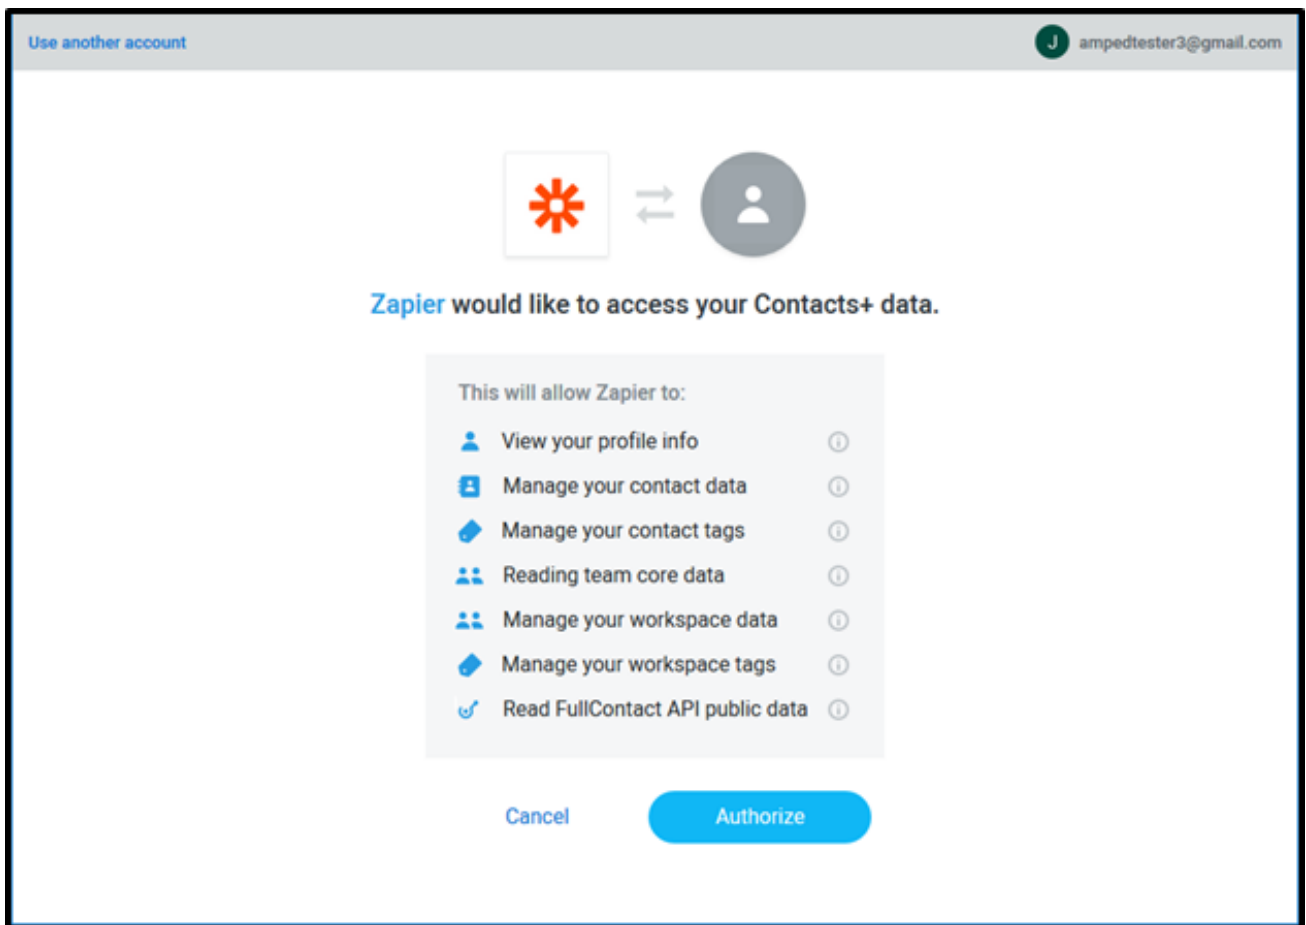

Once the trigger has been selected, you must connect your Contacts+ account. Clicking “Connect an Account” will populate a new window where you will enter your Google account information. If the window does not appear, check your browser pop-up settings.

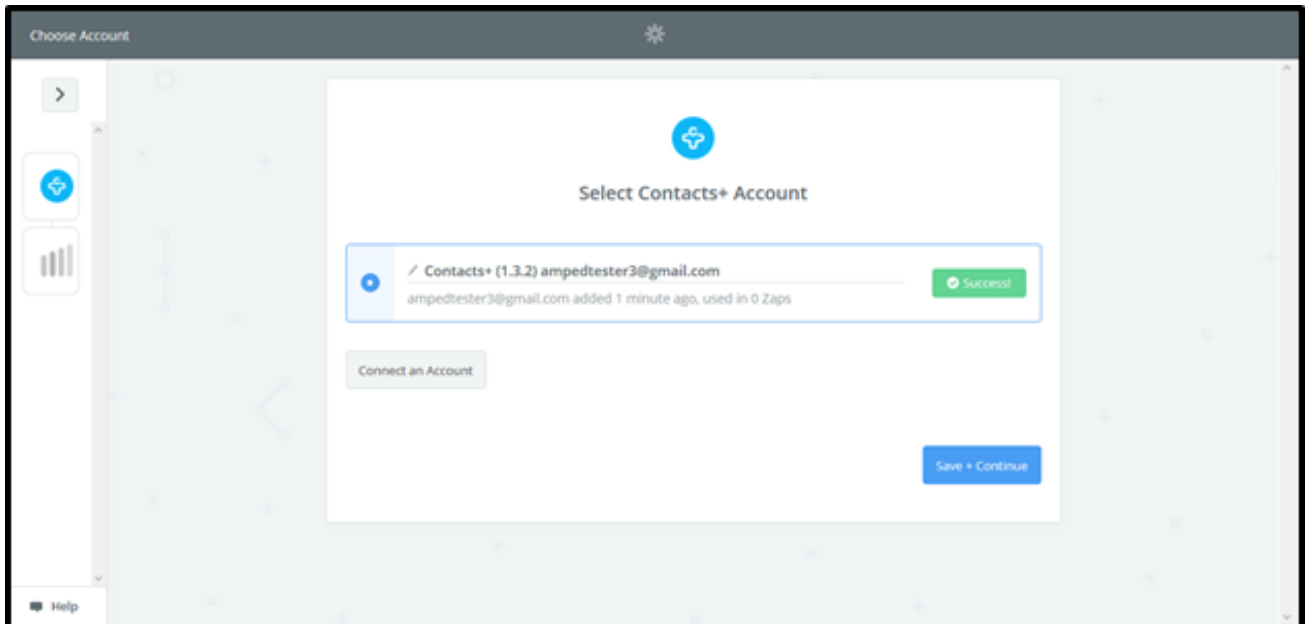

You will be asked to enter your Contacts+ email and password. Click "Log in" after having entered your credentials.

A screenshot of the Contacts+ login page. At the top, a blue header bar contains a notification: 'We have a new look: the FullContact Address Book App is now Contacts+'. Below the header, the page has a white background. On the left, there is a login form with two input fields: 'Email' and 'Password'. Below the 'Password' field is a blue 'Log in' button. Under the 'Log in' button, there is a checkbox labeled 'Remember me' and a link labeled 'Forgot password?'. Below these is a horizontal line with the word 'OR' in the center. Under the line is a blue button with the Google 'G' logo and the text 'Sign in with Google'. On the right side of the page, there is a section titled 'Mobile devices' with a sub-header 'Quickly and easily access the contact information you need to make connections on the go.' Above this text is an illustration of a smartphone displaying a contacts list, with buttons for 'Download on the App Store' and 'GET IT ON Google Play'. At the bottom of the page, there is a footer with the text '2019 Contacts+ - Terms of Use - Privacy Policy'.

Next you will need to allow you access your Contacts+ data. Click "Authorize" to grant this permission and finalize your account connection.

You may test your account connection by clicking "Test" next to the account. If successful, you will see a green "Success!" notification. Click "Save + Continue" to move onto the next step.

Zapier allows you to choose if it should look for specific contacts in your Contacts+ account by selecting a specific Team or Tag. This is an optional step so if you want Zapier to find all new contacts in Contacts+, leave these options blank. If you do not see the Team and Tags options, click "Show advanced options". Click "Continue" to move onto the next step.

Set Up Trigger Options

Set up Contacts+ Contact

Team (optional)
Select the team you want this trigger to work with, otherwise leave it blank for your personal contacts.

Tags (optional)
A list of tags that this trigger should be limited to. This will trigger when any one of these tags are added.

Send Test Lead to Amped
To test Amped, we need to create a new lead. This is what will be created:

SAMPLE:

Last Name:Support
Email:support@contactsplus.com
Company:Contacts+
Mobile:

Street:
PO Box:
City:Denver

EMPTY FIELDS:
Mobile:empty (optional)
Phone:empty (optional)
Street:empty (optional)
PO Box:empty (optional)
Postal Code:empty (optional)

Skip Test

Send Test To Amped

If the test is successful, you will see a green banner stating the test lead was sent to AMPED. You may also check in your AMPED account for the new lead. Click "Finish" to finalize this zap.
