

Individual Assignment Period Settings

Individual Assignment Period Setting Video Tutorial (*right click to open in a new window or tab*)

Assignment Setting- Individual Assignment Period.

As an organization admin, I want the assignment expiration period to be specific from when it is assigned to the individual examinee.

- The **assignment period** can be **global**, assignment expiration is the same **START AND END DATE** for all examinees.
- The assignment period can be individualized, based upon **the number of days starting from when it was assigned to the individual examinee**.
For example:
 - John was assigned the test by the proctor on 12/2 /2020. The assignment will expire in 30 days-01 /01/2021.
 - Ben purchased the assignment from the organization's store on Dec 3, 2020. Ben's assignment will expire in 30 days-01 /02/2021.

Global Assignment Period

Start • 11/25/2020 9:00 AM

End • 11/25/2021 9:00 AM

Timezone • GMT-05:00 Eastern Time US and Canada (EST) ▼

Individual Assignment Period

☐ Use a global assignment period (default)

☒ # of days starting from when it is assigned to the user (1) ▼

☐ Match period from another assignment. Select a Linked Assignment ▼

Delivery Settings

Assignment Settings-Linking Assignment Period to another Assignment

An organization admin can link a second assignment to another assignment. This would automatically match the individual assignment period, the # of days starting from when the first assignment is assigned to a user, to the second/linked assignment.

- **Use Case 1.** Jill completes the first assignment. *Note- THE FIRST ASSIGNMENT MUST BE A PATHWAY ASSIGNMENT IN ORDER TO GENERATE THE CONDITIONAL ATTRIBUTE.* She returns to her dashboard and the second assignment is available. The admin has set the expiration of the parent /first assignment to be 30 days. **She must complete both, the first and the linked /second assignment within the 30 day assignment period.**

Individual Assignment Period

☐ Use a global assignment period (default)

☐ # of days starting from when it is assigned to the user. 180

☒ Match period from another assignment. Magazine_11.25(Parent)

Delivery Settings

- **Use Case 2.** Jane purchases the assessment through the organization's Adaptera Buy Store. Jane **FAILS** the first /parent assignment. The second/linked assessment would be available, as the condition is set to only deliver if the first/parent pathway test= "FAIL."

Important!

In both user cases, the expiration of the first and linked assignment is the specified # of days starting from when it was assigned to the INDIVIDUAL user.
