Supercruncher Release 3.8.2012 - Gauges and Meters, Better iPad Support

Release Goals:

- Improvements to Dataset handling - "Dataset Ants"
- Better grouping tables"… pivot sorting, csv, more metrics
- "iPad" - Improve the charts with browsers that don't support flash
- Empower users to easily "communicate data" in new ways - meters and guages

New Features:

- Additional Chart Types- Meters and Gauges -add "meter" type charts to a report or dashboard because I want to represent my data in a different visual way .
- Better grouping tables - sort, retrieve additional rows and columns beyond the limit
- Datasets - Smaller improvements to datasets that improve the notification, usability, and reliability of dataset handling.
- Several Bug Fixes
