

Supercruncher Release 10.12.2012 - Phone Agents and Report Improvements

Release Goals:

- **Empower users to easily "communicate data" in new ways** - Intelligent Agents via Phone, Agents can be created from more chart and table types
- **Feedback on Existing Functionality** - improvements to reporting to make viewing of data more condensed

New Features:

- **Intelligent Agents:** Intelligent Alert Agents can be created to alert people based on defined change in data
 - Add/Edit an Agent with Phone based notification
 - More options to create conditions for Tables, Headline charts, and maps
 - Preview the table or chart that you are making a an agent on
- **Opt Out of Agents-** you can opt out of agent emails or phone calls by clicking on an opt out link in an agent email or using the phone menu options.
- **Agent Notification Links in the Emails-** Agent notification emails include a link to the report and chart that the agent conditions are based on.
- **Quickly create agents directly from a table/chart/report/metric-** you can not create an agent directly from a report chart or table.
- **Condensed View of iViews-** iViews in a report can be condensed to fit more data on the page to support faster filtering and easier access to results.
- **Count Based on iView Count-** when clicking on the chart icon on an iview you can quickly create a chart based on the iview field and count.
- **Display the Reports next Scheduled Update-** the reports now show when the data in the report will be updated next.
- **Comments Improvements-** the comments are ordered newest to oldest to provide faster access to the newest comments
- **Bug Fixes:** several bug fixes are included in this release.
